SUMMARY

Expert Senior Front End Developer specializing in front-end development. Experienced with all stages of development cycle for dynamic web projects. Well-versed in React, NextJS and Web Application Frameworks. Strong background in management and leadership.

SKILLS

- Proficient in React, NextJS, and GatsbyJS, with expertise in React Hooks, Built-in React APIs, and Routing, including React DOM manipulation.
- Proficient in utilizing high-order functions like Map, Filter, and Reduce in both JavaScript and React.js, with practical examples demonstrating mastery.
- Experienced with state management systems such as React Context, Redux and Redux Toolkit
- Strong command over JavaScript, complemented by a solid understanding of TypeScript and JQuery, enhancing code readability and maintainability.
- Skilled in Express framework, middleware development, and JWT authentication, ensuring secure and efficient server-side operations.
- Competent in working with databases such as PostgreSQL, MongoDB, SQL, Oracle and developing MERN, PERN stacks.
- UI/UX design experience with proficiency in tools like Material-UI, Ant-Design, CSS Modules, Styled Components, and Tailwind
- Proficient in integrating payment services like Stripe Connect, Square, Tap Payment, and Adyen
- Familiarity with React Native and Expo CLI for mobile app development

- Experienced with version control using Git and GitHub
- Experienced in unit testing methodologies
- Familiarity with Linux, continuous integration using Jenkins, and cloud platforms like AWS.
- Experienced on reading API documentations, and googling.
- Effective written and verbal communication with a positive attitude
- Driven to achieve success, quick learner, and reliable team player
- Quick Learner, Self-motivated, reliable and able to take initiative
- Effective time management skills ensuring all tasks are completed on time with quality

EXPERIENCE

AVETTI.COM CORPORATION
Barrie, ON

Senior Front End Developer   09/2021 to Current

- Created custom components, forms, and interfaces for user interactions in React.
- I've contributed to e-commerce projects using React components by spearheading UI design for Sass Projects. This involved crafting intuitive interfaces for key components such as Cart, Basket, Checkout, Product, and Category pages.
- Built reusable UI components that can be used across multiple projects with React.
- Experienced on managing and centralizing application state by using Redux or React Context
- Assisted junior developers in understanding the architecture of large scale react projects as well as debugging any errors they may encounter while developing these applications.
- Participated in code review meetings, providing input on bugs, inefficiencies and potential solutions to emergent issues.
- I've created a React component that integrates image rollover functionality into frontend services. This component adjusts images dynamically based on user interactions like hover and filtering, ensuring smooth transitions between states for an enhanced user experience.
- Implemented a booking system leveraging the Google Calendar API within a MERN Stack framework
- Managed source control systems like Git when working on collaborative teams building out complex react

applications.
- Implemented a React Native project and started from scratch.
- I'm proficient in Tailwind, Styled-Components, CSS Modules and Ant Design for crafting stylish and responsive user interfaces.
- I've integrated Stripe, Adyen, and Tap for payment processing in ecommerce projects, including advanced features like Stripe Connect and Tap Business for enhanced transaction capabilities..
- I've boosted performance through techniques like lazy loading and optimizing packages selection to ensure optimal efficiency.

MATCOR-MATSU MANUFACTURING
Barrie, ON

Front End Developer (Co-op) 01/2021 to 05/2021
- I've implemented a CronJob operation within the MERN stack to automate email notifications to supervisors regarding order statuses. This ensures timely communication and enhances efficiency in order management processes.
- Implemented responsive design techniques to ensure websites are optimized for mobile devices.
- Designed and implemented user interface features such as buttons, menus, forms.
- Developed user interfaces for web applications using HTML, CSS and JavaScript.

USKUDAR UNIVERSITY CENTRAL CAMPUS
Istanbul, Turkey

React Developer 01/2018 to 01/2021
- I've contributed to React component development within large teams, collaborating closely with project managers to ensure alignment with project goals and timelines.
- Created user-friendly websites, ensuring users could easily navigate menus and content
- Implemented React forms seamlessly integrated with RESTful APIs to manage student information, facilitating CRUD operations and ensuring efficient storage and retrieval of data in the database.
- Added enhancements and new features to older websites, implementing user-friendly designs
- Presented solutions to complex design problems in presentations, click-through prototypes, and design specifications.

PRIVATE WEBSITE (ELOBOOST24)
Istanbul, Turkey

Junior Web Developer 03/2014 to 01/2016
- Managed all project and web strategic planning for the marketing and web development team
- Created and built mobile-friendly websites and transitioned legacy site mobile-friendly platform.
- Designed effective interfaces technologies, frameworks and libraries such as HTML, CSS and XML.

EDUCATION AND TRAINING

COMPUTER PROGRAMMER CO-OP DIPLOMA PROGRAM 08/2021
Georgian College, Barrie, ON
- Achieved Dean's List on all semesters (96+ GPA)
- GPA: 96/100

ENGLISH FOR ACADEMIC PURPOSES - LEVEL 8 08/2019
Georgian College, Barrie, ON
- Completed EAP with the highest score, and achieved Dean's List (93 GPA)
- GPA: 93/100

BACHELOR OF SCIENCE: MECHATRONICS ENGINEERING 07/2017
Kto Karatay University, Turkey, Konya
- 2.86/4 GPA
